TO THE MEMBERS OF STAR HEALTH AND ALLIED INSURANCE COMPANY LIMITED

We have audited the Internal Financial Controls over financial reporting of **STAR HEALTH AND ALLIED INSURANCE COMPANY LIMITED** as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of

financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

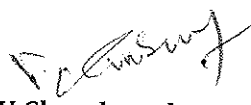

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on, the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention, in accordance with the generally accepted accounting practices and accounting requirements prescribed by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 ('the Accounting Regulations') and amendments if any, the Insurance Act, 1938, the Insurance Regulatory and Development Authority Act, 1999, the Accounting Standards issued by the Institute of Chartered Accountants of India ('ICAI') and the requirements of the Companies Act, 2013 ('the Companies Act'), to the extent applicable.

The Company follows the mercantile system of accounting and recognizes items of income and expenditure on accrual basis.

2. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of certain assets and liabilities as of the Balance sheet date, reported amount of certain revenues and expenses for the year and disclosure of contingent liabilities as of the balance sheet date. The estimates and assumptions used in these financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of financial statements. Actual results may differ from those estimates. Any revision to accounting estimate is recognized prospectively in current and future periods.

3. Revenue recognition for insurance business

3.1 Premium

Premium (net of Service tax) is recognized as income over the contract period or period of risk, as appropriate and for premium receivable on installment basis, it is recognized on installment due dates after adjusting for unearned premium (unexpired risk) and premium deficiency, if any. Subsequent revisions to or cancellations of premium are accounted for in the year in which they occur.

Premium deficiency is recognized whenever expected claims cost, related expenses and maintenance cost exceed related reserve for unexpired risk in Miscellaneous Revenue Accounts.

3.2 Investment Income

Interest income on investment is recognized on accrual basis.

Dividend income is recognized when the right to receive dividend is established.

Profit or Loss on sale of securities is recognized on trade date. Cost of securities is arrived on weighted average cost basis.

3.3 Income from reinsurance business

Commission on reinsurance business is recognized as income on accrual basis.

4. Reserve for Unexpired risk

Reserve for unexpired risks is created as the amount representing that part of the premium written which is attributable to and allocated to the succeeding accounting periods and has been created at 50% of the Net Written Premium of the preceding 12 months as per the directives issued by IRDAI from time to time.

5. Premium received in advance

This represents premium received during the year, where the risk commences subsequent to the balance sheet date.

6. Reinsurance

Reinsurance is ceded in the year in which risk commences and recognized over the contract period or the period of risk, whichever is appropriate as per the treaty arrangements. Any subsequent revision to or cancellation of premium is recognized in the year in which they occur. Unearned premium on reinsurance ceded is carried forward to the period of risk and set off against related unearned premium.

Premium on excess of loss reinsurance cover is accounted as premium ceded as per the reinsurance arrangements.

7. Acquisition cost

Acquisition costs are those that vary with and are primarily cost that are related to acquisition of new and renewal contracts and are expensed in the year in which they are incurred.

8. Claims

Claims incurred represents claims paid, estimated liability for outstanding claims made following a loss occurrence reported and estimated liability incurred but not reported (IBNR) and claims incurred but not enough reported (IBNER). It also includes legal and investigation fees and In House claims processing expenditure calculated at the rate of 3% of Gross Premium pertaining to Health (Retail & Group) Segment.

Estimated liability for outstanding claims in respect of direct business is provided on the basis of claims reported till the end of the financial year. IBNR and IBNER represent that amount of claims that may have been incurred during the accounting period but have not been reported / not enough reported. The appointed actuary for the purpose has certified the said amount on the basis of available statistical data.

9. Investments

Investments are made in accordance with the Insurance Act, 1938 and the Insurance Regulatory & Development Authority (Investment) (Amendment) Regulations, 2016.

Investments are recorded at cost on trade date including acquisition charges (such as brokerage, transfer stamps etc), if any, and exclude interest accrued upto the date of purchase. Investments maturing within or intended to be held for a period of less than twelve months from the balance sheet date are classified as 'Short term investments' while those maturing beyond or intended to be held for a period of twelve months or above from the balance sheet date are classified as 'Long term investments'.

Debt Securities

The net realized gains/losses on debt securities are the difference between the net sale consideration and the amortized cost, which is computed on weighted average basis.

Debt securities, which include government securities are considered as 'held-to-maturity' and are measured at historical cost. Accretion of discount and amortization of premium relating to debt securities is recognized over the holding or maturity period on a straight line basis.

Mutual Funds

All mutual fund investments are valued at realisable Net Asset Value and any unrealised gains or losses is accounted at each balance sheet date in "Fair Value Change Account" and carried forward to the Balance Sheet.

Profit / (loss) on actual sale of units of a particular mutual fund shall include the accumulated fair value change thereof and is recycled to the profit and loss account.

Investments though not separately classified in the accounts, are identified on aggregate basis with policy holders and share holders funds on same line as investment income.

Investment income is allocated to the Miscellaneous Revenue accounts and the Profit and Loss Account based on the ratio of average of "Policy Holders' Funds" and "Shareholders' Funds" respectively (average of funds at the beginning and at the end of the year).

The Policy Holders Funds for this purpose shall include the following:

- A) Outstanding Claims including Incurred but not Reported and Incurred but not enough reported
- B) Unearned Premium Reserve
- C) Premium Deficiency Reserve
- D) Catastrophe Reserve
